COMPETENCES FOR DEMOCRATIC CULTURE

IDENTITY AND EDUCATION

We all need an identity...

... but few have only *one* identity

- Local, national, European, global

A common

- history?
- culture?
- language?
- polity?
- future?

Are identity and critical thinking compatible?

MULTIPERSPECTIVITY

My identity and that of others

Whose heroes and whose villains?

Where you stand depends on where you sit

Multiperspectivity does not mean “anything goes”

There are absolute values, cf. European
Convention on Human Rights

På hver sti drev det folk.
